

Vibrant POP

Add pops of vibrant colour to a sleek black bathroom to give it a sense of fun.

"I wanted to create a funky space for this kids bathroom," explains designer Nicole Rosenberg from Little Liberty. "The Marimekko towels add such a great pop of colour that I didn't need to go crazy with colour elsewhere in the small space. It's always fun to do something a little different for lighting in bathrooms and these exposed Muuto light bulbs gave the space a modern fun feel."
